Setting Safety Features on Cellphones Lesson Plans  
Common Privacy Features matching cards

**Delete Apps**

Delete apps you do not use. Apps pull your data and share with the app makers.

**App Access**

Provide access only to the apps you really know.

**Service  
Provider**

Your service provider can see all text you send, you might want to consider what information you send via text. Police could get a hold of this information if necessary.

**Social Media  
Services**

Social media services have their own unique settings for privacy and security.
