

Who is in Charge?

In the United States, there are different people in charge of the country, states, cities, and towns. These people run for office and are voted in by the community.

Draw a line connecting the leader to their place of work.

State **President**

City/Town **Governor**

Country **Mayor**

School **Principal**

Think of who else is in charge of things. Do you know any leaders? Who are they and what do they do in the community?
