

2027 CSI Arizona Forensic Sketch Artist Contest Witness Statements

Each contestant must complete a Forensic Sketch Artist registration form and submit it along with their sketch prior to **March 5, 2027**. Full submissions (registration form + hard copy of sketch) must be received at the Foundation office by the deadline. Only **one** submission per student will be accepted.

Witness Statement 1

- I saw a Caucasian woman who looked like she was probably in her late 50s to late 60s.
- She had light blonde to white-blond hair that was cut into a chin-length bob. It had a natural wave, with some pieces looking wavier than others. Her hair was parted slightly off-center, just to the right.
- Her face looked somewhere between oval and square, with a broad forehead and a softly defined jaw. I noticed a little sagging around her jawline.
- Her skin was fair but looked like it had been out in the sun a lot. It had a reddish color with small freckles and sunspots across her cheeks, chin, and neck.
- I noticed several wrinkles, including lines between her eyebrows, a horizontal line across the bridge of her nose, crow's feet around both eyes, wrinkles above her upper lip, deep lines from her nose to the corners of her mouth, and lines running from the corners of her mouth toward her chin.
- Her neck had noticeable horizontal wrinkles and looked slightly loose around the throat.
- Her eyes were light blue and looked hooded, with darker coloring and wrinkles underneath them.
- Her eyebrows were light brown to blondish, medium in thickness, and slightly arched. I thought I noticed a small gap in the hair of her right eyebrow toward the outer end.
- Her nose looked straight and proportional to the rest of her face.
- Her lips were light pink, medium in fullness, and turned down slightly at the corners.
- She was wearing a plain black T-shirt with a round neckline that sat a couple of inches below her neck.

Witness Statement 2

- I saw a white woman who looked like she was probably in her early to mid-60s.
- She had wavy white-to-blond hair that was parted near the center. It fell to about her shoulders, or maybe halfway down her neck, and looked layered.
- Her face looked long and oval, and I remember that her lips looked fairly thin.
- Her skin had a lot of wrinkles, especially around her eyes. I also noticed dark spots and reddish patches across her cheeks and forehead.
- Her eyes were blue, narrow, and hooded, and she had noticeable bags under them.
- I remember seeing a scar running through her left eyebrow. It looked like it was either in the middle of the eyebrow or closer to the outer end.
- She was wearing a dark-colored top, which I believe was black.

Witness Statement 3

- I saw a white woman who looked like she was probably in her late 50s to early 60s.
- She had silver-blond to blond hair that was cut in a wavy bob.
- Her eyes looked dark blue, and her eyebrows were blondish-brown.
- Her skin had sunspots and rosy cheeks, and I noticed wrinkles around her eyes and smile lines around her mouth.
- Her face looked a little weathered from being out in the sun, but I remember her features being fairly balanced overall.
- I don't remember any obvious facial scars or marks besides the sunspots and wrinkles.
- She appeared to be wearing a dark shirt.
